**Description**

I bought this bike 2 years ago as a project Bike. I rode it twice last year, but that's it. Life just got in the way for me to fix it. I know that the bolts for the seat are lost, it needs a tune up, and the battery needs replaced. The bike has 20,272 miles on it. I did not lay it over, but the previous owner tipped it when he showed me the bike. It has been garage kept since I have had it. I would rather see someone else give it TLC than for it to sit around my garage. Local pickup only, thank you. I can't get to text messages for some reason, but I can get e-mails and respond to those ASAP. My phone service is weird, but feel free to e-mail me.
